

## **NEW! Produce Your Own Score Sheet From Your Verified Roster!**

**YOU WILL NEED TO HAND IN A SCORE SHEET AND A VERIFIED ROSTER FOR EACH OF YOUR GAMES!**

Please use the online roster verification form at:

<https://webpoint.usawaterpolo.com/website/RosterVerification.asp>

Select "Other" from the drop-down menu for the event.

After the screen refreshes automatically enter the name of the event you are rostering; for this one put "2009 SP REGIONAL JOS" along with selecting the appropriate age division for this particular roster. Once the verified roster is returned to your computer screen, please print enough copies to hand in to the score table before each of your games.

NOW FOR THE BEST PART! (You will need Microsoft Excel to do this cool feature – someone on your team will have this program.)

At the top of the screen after your roster is verified, there is a link to "produce your score sheet". Click on that and a pop-up window will appear stating that the .asp file is not really Excel, but just click OK to get thru that. Then, voila, a score sheet will appear in Excel which is really one-half of the score book for each of your games.

IMPORTANT! To print this on one sheet (necessary) you need to go in to page setup in Excel and select "Fit to 1 page tall and 1 page wide". Save to your computer and print enough of those sheets to attach to your verified rosters to hand in to the score table prior to each of your games.

When the score table gets one of these from each team, they will circle white or dark appropriately, hole punch the right edge of the white team's sheet, hole punch the left edge of the dark team's sheet, insert both into a 3-ring binder (white team on the left) and they now have a score book for that game made up from each of the two teams' score sheets with the names already filled in.

**YOU WILL NEED TO HAND IN A SCORE SHEET AND A VERIFIED ROSTER FOR EACH OF YOUR GAMES!**

NO EXCEPTIONS. Failure to do so will mean that only for your first game will you (the coach of the team) be allowed to handwrite a roster but then you must return to subsequent games with your verified rosters and score sheets, **otherwise you will forfeiture and fining penalties for failure to produce your verified rosters.**
